

PAID ADVERTISING STRATEGY BRIEF

Flower Hill Auto Body.

A six-month paid search and social plan covering Roslyn, Glen Cove, and Huntington.

The whole brief, one page.

What we found, what we're doing, what it costs, and what you get back.

\$6,000/mo

Total ad spend

Across 3 locations.

9 to 12_x

ROAS by month 3

Industry benchmark 8 to 15x.

2 wks

To first ad live

7 launch items, half on PSG.

0

Local advertisers

Caliber is the only national; nobody local.

THE OPPORTUNITY

- 75 years of trust, three certified locations.
- Long Island's only Rivian, Lucid, and Aston Martin certified shop.
- No local independent or specialty shop is buying paid ads.
- You already rank organically on page one for high-value terms.
- EV demand is doubling against 3,033 registered EVs in your ZIPs.

THE PLAN

- 01** Stand up paid search across all three locations.
- 02** Push Huntington harder for the first 90 days.
- 03** Claim the EV vertical (Rivian, Lucid, Tesla).
- 04** Claim the exotic vertical (Aston Martin, Ferrari, Porsche, Audi).
- 05** Run Meta and Instagram alongside search for retargeting.
- 06** Generate Huntington reviews via SMS and email when delivery data is shared.

WHAT YOU'LL SEE BY MONTH 3

- 60 to 80 inbound calls per month across all 3 stores.
- 18 to 24 booked jobs per month at a 30% booking rate.
- \$55K to \$75K in ad-driven monthly revenue.
- Cost per lead under \$120 on Search, under \$75 on LSA.
- 50+ Google reviews at Huntington (from 14 today).

BUDGET BY LOCATION

Months 1-3 → 4+

HUNTINGTON

GLEN COVE

\$1,750 → \$2,000

Established baseline

CHANNEL MIX PER LOCATION: 40% GOOGLE SEARCH · 35% META / INSTAGRAM
20% GOOGLE LSA · 5% BING TEST (MO. 3+)

Nobody on Long Island is bidding against you on Google.

Two things make this campaign worth running. You hold 75 years of trust and the certifications to back it up. And no local shop is buying Google Ads on the searches that drive your business. We haven't seen a market this clean for a shop with this many credentials.

01

75 years, three certified locations.

You hold Rivian, Lucid, and Aston Martin certifications no other Long Island shop can match.

02

Zero paid competition.

Not one local independent or specialty shop is buying ads on the terms that drive your customers.

03

\$6,000 per month, three locations.

Months 1 to 3 push Huntington harder. Months 4 onward rebalance evenly across the three stores.

II

Caliber Collision runs generic national ads. No Long Island independent, regional chain, or specialty shop is buying Google Ads on any of the terms we tested. You can move first.

SEMRUSH COMPETITIVE AUDIT · APRIL 2026

What we're going to do.

Six moves. Two weeks to launch. Six months to a market you own.

01 Stand up paid search across all three locations.

We bid on the high-intent searches your customers run after an accident. Caliber is the only chain currently buying ads here, and they're running generic national copy. We target Long Island specifically, with radius bids around each of your locations.

02 Push Huntington harder for the first 90 days.

Huntington opened recently, so 14 reviews is on track for a new location. Paid search puts you on top of every relevant Huntington-area query while review volume builds. Once review count catches up, the budget rebalances evenly across the three locations.

03 Claim the EV vertical.

Rivian, Lucid, and Tesla searches have zero advertisers. You're the only certified shop on Long Island for Rivian and Lucid. Owners drive to NYC or NJ today. We bid before anyone else does.

04 Claim the exotic vertical.

Aston Martin, Ferrari, Porsche, and Audi terms also have no paid competitors. One \$8,000+ exotic job pays for weeks of ad spend. You're Long Island's only certified Aston Martin shop.

05 Run Meta and Instagram alongside search.

Build brand visibility with the luxury and exotic segments who spend time on Instagram. Retarget anyone who hits your website without booking. Repair events are rare, so this keeps you in their feed until one happens.

06 Build Huntington's review count alongside the ads.

When Flower Hill shares delivery data, PSG sends a review request via SMS and a follow-up email a few days later. Target 50 Google reviews at Huntington by month 3 and 100+ by month 6. Google ranks the LSA local pack on review count, so reviews need to be growing in parallel with the ads.

TIME TO LAUNCH

2 weeks

FIRST REAL NUMBERS

Month 3

STEADY-STATE ROAS

9 to 12x

No local competitor is running paid ads.

We pulled every relevant search term for your three locations and your certifications through SEMrush, then checked who's bidding on each one. Almost nobody is.

SEARCH TERM	MONTHLY SEARCHES	WHO'S ADVERTISING
collision repair near me	60,500	Caliber Collision (national chain) only
body shop near me	74,000	Caliber Collision only
auto body shop long island	30	NOBODY
huntington auto body	210	NOBODY
rivian certified collision center	880	NOBODY
lucid collision repair	40	NOBODY
aston martin body shop	140	NOBODY
electric vehicle collision repair	110	NOBODY

YOU ALREADY RANK WITHOUT SPENDING A DOLLAR

Adding paid ads gives you the ad spot and the organic listing on the same page.

#2

auto body shop
long island

Yelp ranks above you.

#7

EV service centers
long island

Driving qualified traffic
today.

#9

audi body shop near
me

Page-one, no ads behind it.

#14

ferrari repair near
me

Climbing; ads accelerate it.

Four tiers, four different audiences, four different bid strategies.

01 General Collision

"Near me" searches

VOLUME	CPC
60K to 90K /mo	\$2.88 to \$3.32

Audience. People who just had an accident. They open Google, type "body shop near me," and call whoever shows up first.

Approach. Search ads on a 12 to 15 mile radius around each store. All three locations bid simultaneously. We layer LSA (Google Guaranteed) on top to take the local pack as well.

02 Huntington Launch Push

PRIORITY TIER

VOLUME	CPC
210 to 400 /mo local	\$1.60 to \$1.89

Audience. People searching with "huntington" in the query. DePalo ranks mid-page. Nobody is buying these terms.

Approach. Exact-match search on Huntington ZIPs. We sit above DePalo on every relevant query. \$200 to \$300 per month is enough to own this segment.

Why it matters. Huntington opened recently, so 14 reviews is normal for a new location. DePalo has 435 from decades in business. Paid search bypasses the LSA review-count gap entirely while Huntington's review volume builds.

03 EV Monopoly

Rivian, Lucid, Tesla

VOLUME	CPC
390 to 880 /mo	\$4.45 to \$16.72

Audience. EV owners shopping for a certified collision center. No other Long Island shop is Rivian or Lucid certified. They drive to NYC or NJ today.

Approach. Search ads on "rivian certified collision center," "lucid collision repair," and adjacent EV terms. With zero paid competition, ads run at floor pricing.

Trend. "Electric vehicle collision repair" tripled its trend score in 12 months. Demand is doubling against 3,033 registered EVs in your target ZIPs.

04 Luxury Brand Certifications

Aston Martin, Ferrari, Porsche, Audi

VOLUME	CPC
90 to 590 /mo per make	\$2.75 to \$59.86

Audience. Owners searching for shops their car's manufacturer has certified.

Approach. Exact match on brand-specific terms. No paid competitors. The \$59.86 Aston Martin CPC reads scary on paper. One Aston Martin job pays for the campaign for a quarter.

\$6,000 a month. Heavier on Huntington for the first three.

Steady state is \$2,000 per location per month. Months 1 to 3 give Huntington an extra \$500 to clear the cold-start hump. Once review velocity, LSA verification, and call volume stabilize, the three stores rebalance evenly.

Allocation by location

LOCATION	MONTHS 1 TO 3	MONTHS 4 ONWARD	WHY
Huntington PRIORITY	\$2,500	\$2,000	New location, low review count
Roslyn	\$1,750	\$2,000	Established, baseline budget
Glen Cove	\$1,750	\$2,000	Established, baseline budget
Total	\$6,000	\$6,000	

Channel mix per location

CHANNEL	MONTHLY	%
Google Search PPC	\$800	40%
Meta / Instagram	\$700	35%
Google LSA	\$400	20%
Bing (Mo. 3+)	\$100	5%
Per location	\$2,000	100%

What each platform does

PLATFORM	JOB
Google Search	Highest-intent active searches; direct response
Meta / IG	Brand visibility, exotic positioning, retargeting
Google LSA	Pay-per-lead general repair, cheapest CPL
Bing	Older, affluent demographic test (Month 3+)

Spend triggers: scale a platform 20% when its CPL drops below \$60. Pause when CPL holds above \$200 for two weeks without improvement.

How each \$2,000 gets spent.

Google Search (\$800 per location)

CAMPAIGN	MONTHLY	CPC
General Collision (Tier 1)	\$420	\$2.88–\$3.32
EV Monopoly (Tier 3)	\$130	\$4.45–\$16.72
Exotic / Luxury (Tier 4)	\$150	\$2.75–\$59.86
Brand Protection	\$100	\$1.73 avg

Meta / Instagram (\$700 per location)

CAMPAIGN	MONTHLY	JOB
General prospecting	\$250	Awareness, everyday vehicles
Luxury / exotic prospect	\$250	North Shore high-income
Retargeting	\$200	Convert prior site visitors

70 / 20 / 10 across the entire \$6,000

70% Proven · \$4,200 /mo Google Search and LSA. Direct response, measurable, every call costed.	20% Scaling · \$1,200 /mo Meta prospecting. Brand awareness and upper-funnel for retargeting.	10% Testing · \$600 /mo Bing test, YouTube pre-roll later, creative experiments.
--	--	---

Phase pacing across the six months

Launch & Learn	MONTHS 1-2	Full budget. Conservative bids. Maximize Clicks bidding. Track every conversion.
Optimize	MONTHS 3-4	Switch to Maximize Conversions once each campaign has 15+ conversions/month. Kill underperformers.
Scale	MONTHS 5-6	Target CPA bidding on winners. Test YouTube pre-roll for exotic brand-building.
Maintain	MONTHS 7+	70/20/10 steady state. Quarterly reallocation reviews against CPL and ROAS targets.

\$7,200 a month all-in. Setup waived.

Two recurring line items, plus the setup waived as a goodwill gesture for the Picciano family. Ad spend is paid directly to Google, Meta, and Bing. PSG does not mark up media costs.

ONE-TIME SETUP

\$0 **WAIVED**

\$2,500-value waived as a goodwill gesture. Covers strategy, account architecture, conversion tracking, LSA applications, creative kit, and review request system.

PSG MANAGEMENT

\$1,200/mo

20% of ad spend, billed flat.
Manages 12 campaign sets across Search, LSA, and Meta.
No media markup.

AD SPEND

\$6,000/mo

Paid directly to Google, Meta, and Bing on your accounts. You see every dollar the platforms charge.

TOTAL MONTHLY INVESTMENT

\$7,200 /MO RECURRING

What setup includes

- Strategic kickoff and competitive baseline.
- Google Ads MCC, Google LSA applications, Meta Business Manager.
- Google Tag Manager and conversion tracking on your site.
- Call tracking numbers across all three locations.
- Initial creative kit: 4 ad variants per tier, per location.
- Review request system (SMS plus email follow-up, triggered by your delivery data).

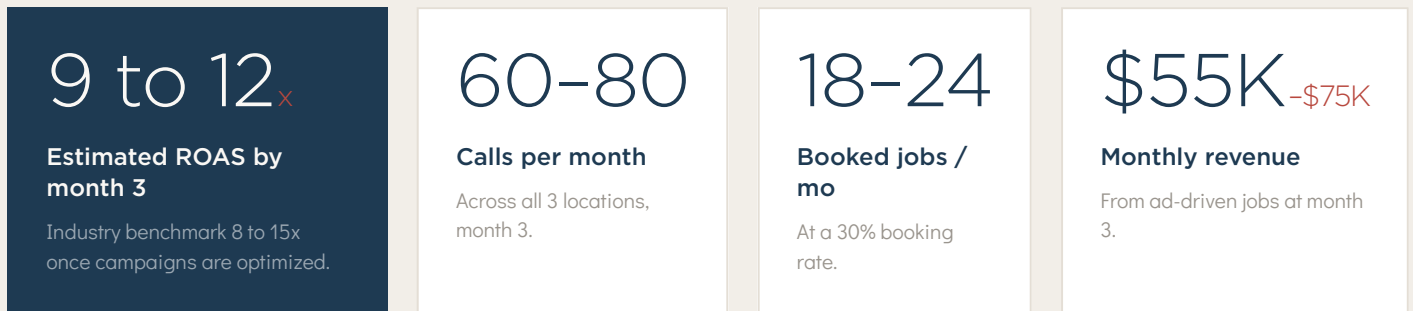

What management includes

- Daily campaign monitoring across all four tiers.
- Bid optimization and budget reallocation between tiers.
- Bi-weekly creative refresh on Search and Meta.
- Monthly performance report with strategy recommendations.
- 30-minute monthly review call with you and the team.
- Ongoing review request system upkeep and quality monitoring.

Month one and every month after: \$7,200 (\$1,200 PSG management plus \$6,000 ad spend).
No setup invoice. Ad spend pauses if you pause; PSG fee pauses with 30-day notice.

Conservative projections through month 6.

Numbers below are conservative. Industry benchmark for collision repair is 8 to 15x ROAS once campaigns optimize past month 3. We're modeling 9 to 12x.

Performance milestones

METRIC	MONTH 1	MONTH 3	MONTH 6
Inbound calls, Huntington	Tracking	25+	50+
Inbound calls, Glen Cove	Tracking	15+	30+
Inbound calls, Roslyn	Tracking	15+	30+
EV + exotic inquiries (all locations)	Tracking	5 to 8	12 to 20
Cost per lead, Google Search	Baseline	<\$120	<\$90
Cost per lead, LSA	Baseline	<\$75	<\$50
Google reviews, Huntington	14	50+	100+

Revenue math, month 3: 60 to 80 calls per month, 30% booked, 18 to 24 jobs at \$2,500 average ticket (general) or \$8,000+ (exotic and EV), against \$6,000 ad spend.

Three competitors. None of them defending paid search.

DePalo & Sons

HUNTINGTON · PRIMARY THREAT

- 435 Google reviews at 4.9 stars; family-run since 1972; BMW certified.
- No EV certifications, no exotic certifications beyond BMW.
- Ranks mid-page organically for Huntington terms.
- Zero paid defense; can be outranked on day one.

Caliber Collision

NATIONAL CHAIN

- Generic "near me" ads, no Long Island geo-targeting.
- No luxury certifications, no EV certifications.
- Strong local pack via scale, weak organic on specialty terms.
- Defensible at scale, not on your specialty turf.

Everyone Else

10 TO 15 LOCAL SHOPS

- Zero paid advertising activity detected anywhere.
- Organic rankings fragmented across the field.
- No single shop dominates Long Island search today.
- First mover sets the floor on CPCs for years.

CPCs on these terms are at the floor right now because nobody is bidding. The minute someone else starts, prices climb fast and stay there. Moving first locks the math in.

THE WINDOW · WHY NOW

Seven items, two weeks to first ad live.

Three items are already complete. PSG handles the next three. We need one set of photos from Flower Hill: interior shots of the Huntington shop and a few vehicles in the bay.

ITEM	OWNER	STATUS
01 Google Ads account access (or new MCC)	PSG	COMPLETE
02 Meta Business Manager admin access	PSG	COMPLETE
03 GTM installation on website	PSG	Week 2
04 Google LSA applications, all 3 locations	PSG	Week 1*
05 Call tracking numbers (Google forwarding)	PSG	Week 2
06 Interior photos of Huntington + vehicles in the bay	Flower Hill	Pending
07 Lucid 2026 Shop of the Year imagery	Flower Hill	COMPLETE

* LSA verification typically takes 1 to 2 weeks after submission. Once the Huntington interior and vehicle photos arrive, every asset needed to launch is in place.

PARALLEL WORKSTREAM

Reviews must run alongside ads.

Huntington opened recently, so 14 reviews is on track for a new location. Google LSA leans heavily on review count when ranking the local pack, so we want that count growing in parallel with ad spend. The system depends on Flower Hill sharing customer delivery data; PSG handles the request and follow-up from there.

SMS Review request Sent on the delivery data you share with PSG.	+3d Email follow-up A few days after the SMS goes out.	50+ Reviews by Mo. 3 Threshold to compete in LSA pack.	100+ Reviews by Mo. 6 Begins to challenge DePalo.
---	---	---	--

THE BOTTOM LINE

You hold certifications nobody else on Long Island has, in a market where no one is buying ads, while EV and exotic search demand keeps climbing.

We open the campaign in two weeks. By month six, you set the price floor.
